

**Special Educational Needs and  
Disability Policy  
SPAIN**

**September 2022**

### 1 Definition of Special Educational Needs and Disability (SEND)

- 1.1 'A child or young person has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for him or her. Children and young people who have SEND may also have a disability— that is '...a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities'. Children and young people with such conditions do not necessarily have SEN, but there is a significant overlap between disabled children and young people and those with SEN. Where a disabled child or young person requires special educational provision they will also be covered by the SEN definition.' (Code of Practice)

### 2 Legislation and Regulation

- 2.1 This policy has regard to:
- The Equality Act 2010;
  - The Children and Families Act 2014;
  - SEN and Disability Code of Practice, 0-25 years 2014 (SEND Code 2015) (DFE); and
  - The General Data Protection Regulation 2016 (GDPR)

### 3 Principles underlying Practice

- 3.1 The **Code of Practice** describes the principles that should be observed by all professionals working with children and young people who have SEN and/or disabilities. The school aims to:
- Focus on inclusive practices and removing barriers to learning;
  - Identify early the special educational needs of young people;
  - Make high quality provision to meet the needs of young people and to ensure equality of opportunity;
  - Take into account the views of young people and their families;
  - Enable young people and their parents to participate in decision-making;
  - Collaborate with partners in education, health and social care where appropriate;
  - Ensure that appropriate resources are available for pupils with temporary or long-term special needs; and
  - Provide support for teachers to meet the learning needs of all pupils, making reasonable adjustment to provision to meet such needs.
- 3.2 The school takes a positive and professional whole-school approach to pupils with SEND. Each and every teacher is responsible for the education and progress of each pupil.
- 3.3 Pupils with SEND are the shared responsibility of all staff. All staff are expected to have an understanding and awareness of the impact of specific learning profiles on teaching and learning.
- 
- 3.4 No learning support or intervention can replace the importance of first quality teaching.
- 3.5 Not all students who present temporary difficulties are SEN students. Each child is unique and different from others.
- 3.6 To ensure the needs of pupils with SEND are addressed, the Learning Support Team will:
- 3.7
- Identify and assess pupils with SEND, and where necessary, refer for further assessment by other professionals such as Educational Psychologists, Specialist Teachers and Therapists;
  - Develop and monitor support measures where a need is identified;
  - Develop and update the SEND Register and ensure that these are circulated amongst teaching staff;

## Special Educational Needs and Disability Policy

- Work in close liaison with teaching staff to ensure confidential communication on learning needs and progress of pupils;
- Teach pupils according to their specific needs, recognising their particular strengths and learning needs to promote achievement of their academic potential;
- Communicate effectively with parents/guardians on the learning needs of pupils and provide a Learning Plan for those pupils on the Learning Support Register and ensure that these are circulated to the staff of specific pupils; and
- Collate evidence to support applications for additional funding and access arrangements in examinations.

### 4 Identifying Special Educational Needs

4.1 Early identification of pupils' needs is the key to unlocking the potential of pupils who may have special educational needs. We adopt a **graduated approach** to ensure that pupils who do not develop age appropriate knowledge and skills, or who fall behind their peers, are identified as early as possible.

4.2 In attempts to understand the learning needs of pupils, we apply the four broad categories of need as set out in the SEN and Disability Code of Practice:

Communication and interaction needs	Cognition and learning needs	Social, emotional and mental health needs	Sensory and/or physical needs
Students who experience difficulty with speech, language and communication. Examples include: Dyslalia, Delayed Speech, Specific Language Impairment, Social Pragmatic Communication Disorder, and Autism Spectrum Disorder, etc.	Students who learn at a slower pace than their peers, or who have difficulties acquiring skills in a specific area such as literacy. This includes students with moderate learning difficulties and severe learning difficulties, requiring support in all areas of the curriculum and participation in school life in general. Examples include: Dyslexia, Dyscalculia, and Dysgraphia, etc.	Students' needs may be manifested in different ways, such as becoming withdrawn or displaying challenging behaviour. These may include being disruptive or self-harming. Students who have difficulty paying attention or forming attachments with adults also fall into this category. Examples include ADHD and Behavioural Disorders, etc.	Students who require special educational provision because they have a disability that prevents them from accessing the educational facilities that are generally available. Examples include auditory, visual and motor disabilities, among others.

### 5 Early Years

5.1 This policy applies to children in the early years. The person with responsibility for SEND in the early years is the SEN Coordinator (Jessica Sara Puritz Torkelsen) and the school's psychologists (Ana Ciruelos Lumeras and Natalia Guijarro Montoro).

### 6 Categorisation of Students

6.1 We use a simple categorisation of students which helps provide a consistent and understood language:

Wave 1 Universal Support	Wave 2 Targeted Support	Wave 3 Specialist Support
<p>It is our firm belief that pupils' needs are best met <b>in the classroom</b> and that, therefore, every teacher is responsible and accountable for the progress and development of all pupils they teach, including those with SEND. At this universal level, we train teachers to deliver high quality teaching, differentiated for individual pupils. We review the progress of all pupils at least three times per year and make rapid adjustments to support strategies and, where necessary, teachers' understanding of the needs of individual pupils they teach. In addition, we talk to students and their parents to gain as full an understanding of their learning needs as possible.</p>	<p>We provide <b>targeted support</b> when we consider it appropriate to make additional <b>short term special educational provision</b> to remove or reduce any obstacle to a pupil's learning, or to help them catch up when termly data analysis shows they have fallen behind their peers. Such specific, targeted <b>one to one or small group</b> interventions may be run outside the classroom, and limited to a number of weeks to minimise disruption to the regular curriculum.</p>	<p>We recommend specialist support when we consider it necessary to seek <b>specialist advice and/or regular long term support from a specialist professional outside the academy</b> in order to plan for the best possible learning outcomes for those pupils who fail to make progress in spite of high quality teaching and targeted intervention. This may include assessment and/or support from: an Educational Psychologist, an Assistant Educational Psychologist, a Speech and Language Therapist, Specialist Dyslexia Teacher, Specialist Sensory Advisory Teachers (for students with hearing or visual impairments); an Occupational Therapist; a Physiotherapist; a Therapeutic Learning Mentor; an Arts Psychotherapist; a Psychotherapist or a Counsellor. This is not an exhaustive list.</p>

## 7 The Graduated Approach

7.1 The school's approach to identifying and supporting SEN is informed by the **SEN Code of Practice 2015**, which recommends a graduated response to pupils who may be underachieving, based on a continuous process of assessment, planning and review. The school will make reasonable adjustments to remove barriers to learning or to increase access to all aspects of school life, including academic and extra-curricular activities.

7.2 The first response to existing SEN or possible SEN is High Quality teaching in subject lessons, using differentiated teaching strategies to target specific difficulties.

Teachers use data that has been collected by the school and any available information regarding existing SEN to gain a full understanding of progress and individual needs. Sources of information might include:

- Standardised tests (e.g. GL Assessment, NFER, CAT4, MIDYIS, YELLIS, ALIS);
- Psycho-pedagogical tests done by the Psychology Department in our centre.
- Educational Psychologist (EP) or Specialist Teacher reports from other centres
- Standardized tests done per group by the Psychology Department (AEI, BAPAE) ;
- Information from previous schools for new pupils, as well as information provided by parents or guardians in intake interviews;
- Discussions with parents;
- Observations in lessons;
- In-class assessments; and everyday work;
- Discussions with Learning Support Team;
- Communication with outside specialists;

7.3 Subject teachers will implement strategies in response to the picture of need and then review outcomes within a reasonable time frame. Where pupils have not made progress despite this approach the cycle will begin again but may incorporate further specific interventions such as:

- Psycho-pedagogical tests done by the Psychology Department in our centre.
- Targeted one-to-one or small group support/revision lessons with personnel in the Learning Support Team to help with literacy, comprehension, study skills, writing skills, or revision techniques;
- Mentoring sessions; and
- The Learning Support Team may observe lessons and offer advice regarding additional strategies in subject lessons.
- In the Infants and Juniors Departments, a Personal Learning Plan (PLP) is established.

7.4 Once again, the pupil's progress will be reviewed following these specific interventions and if the desired progress has not been made, the level of support may increase to include liaison with outside agencies such as:

- Education or Clinical Psychologist, or Psychiatric Assessment;
- Full Specialist Teacher assessment;
- Child and Adolescent Mental Health Services (or equivalent) involvement, be they public or private;
- EHCP (Education and Health Care Plan) request; and/or
- GP or Paediatrician review.

7.5 Using all the information gathered at this stage, the process of applying new strategies and reviewing progress will continue.

### 8 Responsibility for SEN

- 8.1 The SEND Code of Practice makes explicit that, 'Teachers are responsible and accountable for the progress and development of the pupils in their class, including where pupils access support from teaching assistants or specialist staff'. All subject staff are required to be aware of a pupil's specific needs and be prepared to differentiate work appropriately with particular regard to the advice included in the Personalised Learning Plan. The Learning Support Team works closely with pupils and parents when reviewing targets and assessing effectiveness of strategies/interventions. In cases where there is a complex need (including pupils who have an Education Health and Care Plan), reviews may need to include outside agencies/specialists.

### 9 Managing Learning for Pupils on the SEND Register

- 9.1 Those students who have been evaluated and present Special Educational Needs and Disabilities will be included in the SEN Register, which is shared with all teaching staff in each department.
- - The Register contains information about the difficulties presented by the student and the evaluations which have been performed, along with their corresponding date. It also includes guidance and strategies to help their student reach his or her objectives, and provisions recommended for said pupil (examples include extra time on exams, adapted exam format, the use of special materials, etc.) as well as recommendations on methodology. The Register is maintained and updated by the Psychology Department (Psychologists and SENCo).
- 9.2 Identificación of Special Educational Needs is done by teaching staff with the Learning Support Team (the psychologists and the SENCo, the heads of departments and learning support assistants).

Teachers facilitate information about which areas and aspects the student shows the most difficulties in their subject to paint a picture of need and create and implement a Personalised Learning Plan (PLP). The PLP will be reviewed each trimester to assess progress and to make updates.

The Psychology Department supports the creation of the PLP's by offering information about the students who have been evaluated.

- 9.3 The PLP will be reviewed each trimester to assess progress and to make updates.
- 9.4 The process of identifying Special Educational Needs and creating a PLP is done principally by the teachers with the Learning Support Team (the psychologists and the SENCo, the heads of departments and learning support teachers). Parents are informed periodically.

### 10 EHC Plans

- 10.1 Where a child has an Education Health and Care Plan (EHCP) it will be reviewed annually, working with the local authority as appropriate. Schools must also make sure that particulars of educational and welfare provision for pupils with EHC plans is made available to parents, parents of prospective pupils and, on request, to the Chief Inspector, Secretary of State or independent inspectorate.

### 11 Recording SEND

- 11.1 We are required by law to keep a record of those pupils who have been identified as having SEND, and the provision we make for such pupils. For each pupil with SEND, the SENCo will record on the school data management system their broad area/s of need as listed above, as well as a description of any specific areas of need. This will make up the school **SEND register**. Where a pupil no longer requires the additional provision or support, the entry will be deleted from the SEND register.

### 12 External Agencies

- 12.1 We always work proactively and collaboratively with external agencies.

### 13 Exam Concessions

- 13.1 Exam boards set out the regulations that all schools are required to follow when considering exam concessions. Schools are required to make 'reasonable adjustments' while ensuring that no pupil is given an 'unfair advantage'. The Learning Support Team will assess needs and update the evidence.

### 14 Use of Laptops and Word Processing

- 14.1 If a report by an Educational Psychologist or other professional, such as an Occupational Therapist, recommends the use of a laptop in class, pupils should aim to type faster than they write and touch typing classes are suggested to support this. If the laptop is part of a normal way of working in lessons then it may be used in examinations.

### 15 Extra Time

- 15.1 In order to qualify for extra time in an examination, the school will adhere to exam board regulations. Alongside specific assessment test outcomes stipulated by exam boards, it is usual practice to demonstrate that the use of additional time is part of a normal way of working in school.

### 16 Transition

- 16.1 Transition can be challenging for many children, but in particular for those pupils with SEND. The following key principles are adhered to in order to support successful transitions for children with SEND. Transition arrangements are made for pupils needing significant support with SEND matters in collaboration with the family, the receiving school and any outside agencies involved:
- An exchange of effective and meaningful documentation in order to understand prior learning need.
  - The SENCo and/or psychologists will contact the previous school.
- 16.2 Where children with SEND leave the school, the SENCO will work cooperatively with the receiving school to provide information about the pupil.

### 17 Management and Roles

17.1 All schools have duties under the Equality Act 2010, not only to ensure that 'reasonable adjustments' are made for pupils already attending the school, but also to consider what might be needed to ensure that any future pupils with a disability are not disadvantaged. The Senior Management Team, led by the Head, should regularly review how expertise and resources used to address SEND can be used to build the quality of whole-school provision as part of their approach to school improvement. The SENCo for the school is **Jessica Sarah Puritz Torkelsen**. To ensure best practice, the SENCO is an experienced, qualified teacher currently earning an International Award for Special Educational Needs Coordination.

### 17.2 Class and subject teachers

- Responsible for the progress of pupils with SEND.

### 17.3 The SENCO

- The SENCO has day-to-day responsibility for the operation of the SEND Policy and coordinating provision made for students with SEND.
- The SENCO, along with the psychologists, provides professional guidance to colleagues with the aim of securing high quality teaching for students with SEND, and works closely with students, parents and other professionals to ensure students with SEND receive appropriate support.
- The SENCO plays an important role with the Head and proprietor in determining the strategic development of the SEND Policy and provision within the school in order to raise the achievements of students with SEND.

17.4 The SENCO and psychologists are also responsible for the following:

- In relation to each of the registered pupils who the psychologists consider may have special educational needs, informing a parent/carer of the pupil that this may be the case as soon as is reasonably practicable;
- In relation to each of the registered pupils who have special educational needs:

#### The SENCo is in charge of:

- Coordinates the making of a Learning Support Plan to support the student in his or her needs.
- Monitoring the effectiveness of any special educational provision made;
- Ensuring the records of the pupil's special educational needs and the special educational provision made are maintained and kept up to date;
- Ensuring that, where the pupil transfers to another school or educational institution, educational provision made is conveyed to the appropriate authority or the proprietor of that school or institution;
- Promoting the pupil's inclusion in the school community and access to the school's curriculum, facilities and extra-curricular activities;
- Selecting, supervising and training learning support assistants who work with pupils with special educational needs;
- Preparing and reviewing the information required by law to be published in relation to special educational needs provision.

#### The School Psychologists are in charge of:

- Identifying students' Special Educational Needs and creating psycho-pedagogical reports which compile the difficulties, needs and recommendations.
- Recommending the appropriate services for the student, when needed.
- Liaising with and providing information to a parent/carer of the pupil on a regular basis about that pupil's special educational needs and the special educational provision made;

- Advising teachers, along with the SENCo about differentiated teaching methods appropriate for individual pupils with special educational needs;
- Coordinating the communications between the centre, family and external therapists, be they public or private.
- Contributing to, along with the SENCo, in-service training for teachers at the school to assist them to carry out necessary tasks to meet the needs of pupils with special educational needs;

### 17.5 The Headteacher

The Headteacher has overall responsibility for the strategic planning and day-to-day delivery of SEND provision.

## 18 Document Retention

18.1 We are required to keep SEND documents for specified amounts of time in accordance with legislation, please see the Data Retention Policy for specific guidelines.

## 19 Complaints

19.1 All complaints should be dealt with via the school's agreed Complaint Procedure.
